Annual Consolidated Financial Statements
For the years ended December 31, 2023 and 2022
(Expressed in United States dollars, unless otherwise stated)

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The consolidated financial statements of Panoro Minerals Ltd. ("the Company") and related information presented in this financial report are the responsibility of the Company's management and have been approved by the Board of Directors. The consolidated financial statements are prepared in accordance with IFRS Accounting Standards and reflect management's best estimates and judgments based on information currently available.

Management has developed and maintains a system of internal controls to ensure that the Company's assets are safeguarded, transactions are authorized and properly recorded, and financial information is reliable.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls through its Audit Committee, which is comprised of a majority of non-management directors. The Audit Committee reviews the results of the audit and the annual consolidated financial statements prior to their submission to the Board of Directors for approval.

The consolidated financial statements have been audited by KPMG LLP on behalf of the shareholders and their report follows.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Panoro Minerals Ltd.

Opinion

We have audited the consolidated financial statements of Panoro Minerals Ltd. (the "Entity"), which comprise:

- the consolidated statements of financial position as at December 31, 2023, December 31, 2022, and January 1, 2022
- the consolidated statements of loss and comprehensive loss, changes in shareholders' equity and cash flows for the years ended December 31, 2023 and December 31, 2022
- and notes to the consolidated financial statements, including a summary of material accounting policy information

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the consolidated financial position of the Entity as at December 31, 2023, December 31, 2022, and January 1, 2022 and its consolidated financial performance and its consolidated cash flows for the years ended December 31, 2023 and December 31, 2022 in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our auditor's report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 in the financial statements, which indicates that the Entity has no current sources of revenue, incurred a loss during the year ended December 31, 2023, had a working capital deficiency and an accumulated deficit at December 31, 2023 and its ability to carry out its planned business objectives is dependent on its ability to raise adequate financing to continue the exploration and ultimate development of its exploration and evaluation assets.

As stated in Note 2 in the financial statements, these events or conditions, along with other matters as set forth in Note 2 in the financial statements, indicate that a material uncertainty exists that may cast significant doubt on the Entity's ability to continue as a going concern.

Our opinion is not modified in respect of this matter.

Emphasis of Matter – Comparative Information

We draw attention to Note 3(b) to the financial statements ("Note 3(b)"), which explains that certain comparative information presented:

- for the year ended December 31, 2022 has been restated.
- as at January 1, 2022 has been derived from the financial statements for the year ended December 31, 2021 which have been restated (not presented herein).

Note 3(b) explains the reason for the restatement and also explains the adjustments that were applied to restate certain comparative information.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended December 31, 2023. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the "Material Uncertainty related to Going Concern" section of the auditor's report, we have determined the matters described below to be the key audit matters to be communicated in our auditor's report.

Evaluation of indicators of impairment for exploration and evaluation assets

Description of the matter

We draw attention to notes 3(c) and (d), 4(d), 4(e) and 6 to the financial statements. At December 31, 2023, the Entity has exploration and evaluation ("E&E") assets of \$47.4 million. E&E assets are assessed for impairment at each reporting period whenever events or changes in circumstances indicate that the carrying amount may exceed its recoverable amount. If any such indication exists, then an impairment test is performed.

Management exercises significant judgment in assessing for indicators of impairment. Impairment indicators assessed include:

- whether the rights to explore the area of interest have expired during the period or will
 expire in the near future, and the rights are not expected to be renewed;
- substantive expenditure on further exploration and evaluation is not planned or budgeted;
- the exploration activities have not led to a discovery of commercial reserves and the Entity has decided not to continue such activities in the area of interest being explored; or
- sufficient data exists to indicate that, although exploration in the area is likely to continue, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

Why the matter is a Key Audit Matter

We identified the evaluation of indicators of impairment for E&E assets as a key audit matter. This matter represented an area of significant risk of material misstatement given the magnitude of the E&E assets and the judgment to determine whether future economic benefits are likely. Significant auditor judgement is required to evaluate the results of our audit procedures assessing the Entity's determination of whether indicators of impairment exist.

How the matter was addressed in the audit

The following are the primary procedures we performed to address this key audit matter.

We evaluated the Entity's analysis of impairment indicators by:

- Assessing the status of the Entity's right to explore by obtaining confirmation from external legal counsel that mineral exploration rights are in good standing and discussing with management if any rights are not expected to be renewed.
- Inspecting the Entity's annual exploration and evaluation budget to determine whether substantive expenditures on further exploration and evaluation are planned for its exploration projects.
- Reading information in an updated technical report and relevant internal and external communications, including minutes of meetings of the Board of Directors, press releases, and other public filings to assess exploration results and if the Entity has decided to discontinue exploration or that the carrying amount is unlikely to be recovered for any of its E&E assets.

Other Information

Management is responsible for the other information. Other information comprises the information in Management's Discussion and Analysis filed with the relevant Canadian Securities Commissions.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated.

We obtained the information included in Management's Discussion and Analysis filed with the relevant Canadian Securities Commissions as at the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditor's report.

We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
 - The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- Provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group Entity to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Determine, from the matters communicated with those charged with governance, those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Chartered Professional Accountants

The engagement partner on the audit resulting in this auditor's report is Robert Ryan Owsnett.

The accompanying notes are an integral part of these consolidated financial statements.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

1. Nature of operations

Panoro Minerals Ltd. is incorporated under the *Business Corporations Act* in the Province of British Columbia. The Company's principal place of business is located at Suite 480 – 505 Burrard Street, Vancouver, BC, Canada V7X 1M3. Panoro Minerals Ltd. and its subsidiaries are referred to as "Panoro" or the "Company."

The Company is an exploration-stage company engaged principally in the acquisition, exploration, and development of mineral properties in Perú and trades on the TSX Venture Exchange (the "Exchange") as a Tier 2 mining issuer under the trading symbol "PML". The Company also trades on the Bolsa de Valores de Lima under the same trading symbol, and on the OCTQB under the symbol "POROF".

2. Going concern

These consolidated financial statements have been prepared on a going concern basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge is liabilities in the normal course of business.

The Company has no operating revenue and recorded a loss of \$2,094,033 for the year ended December 31, 2023 (2022 – \$450,365). As at December 31, 2023, the Company had an accumulated deficit of \$40,630,601 (December 31, 2022 – \$38,536,568) and a working capital deficiency, being current assets less current liabilities, of \$10,482,892 (December 31, 2022 – \$4,582,996).

The Company's investment in its exploration and evaluation assets comprises a significant portion of the Company's assets. Recovery of the carrying value of the investment in these assets, including the investment in Antilla Copper S.A. and its property and equipment, and the Company's ability to continue operations as a going concern are dependent upon the existence of economically recoverable reserves, confirming and maintaining legal ownership of the resource properties, the ability of the Company to obtain the necessary mining and environmental permits, the ability of the Company to obtain necessary financing to complete the exploration and development, and the attainment of future profitable production or the disposition of these assets for proceeds in excess of their carrying values.

Although the Company expects to have sufficient financial resources to cover its existing obligations and operating costs and undertake its currently planned programs, the Company will require further funding in the second half of 2024 to fund exploration and evaluation activities, and ultimately develop its properties within the next twelve months. While the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms that are acceptable to the Company. These conditions create a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern.

The ability of the Company to carry out its planned business objectives is dependent on its ability to raise adequate financing from lenders, shareholders, and other investors and/or achieve operating profitability and generate positive cash flows. The Company is in the business of exploring and developing mineral property interests, and as such, must continually seek sources of financing to

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

further develop and explore its mineral exploration and evaluation assets and to support general and administrative expenses.

The Company will continue to seek additional financing through the sale of mineral property interests, debt financing, equity financing, and optioning its other mineral property interests. However, it is not certain that such financing will be available. The Company may be adversely impacted by a lack of normal available financing, inability to maintain mining licenses, and continued uncertainty in the exchange and commodity markets.

These consolidated financial statements do not reflect adjustments to the carrying values of its assets and liabilities, the reported income and expenses, and the classification used in the consolidated statements of financial position, which may be required should the Company be unable to continue as a going concern. These adjustments could be material.

3. Basis of presentation

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The accounting policies applied in these consolidated financial statements are based on IFRS effective for the year ended December 31, 2023.

The consolidated financial statements of the Company for the year ended December 31, 2023, were approved and authorized for issuance by the Board of Directors on April 29, 2024.

(b) Functional and reporting currency and foreign currency translation

Functional currency

Commencing on January 1, 2023 (the "Effective Date"), the functional currency of the Company and its subsidiaries was reassessed as a result of a change in underlying transactions, events, and conditions. As a result of this reassessment the functional currency the Canadian parent company and subsidiaries changed from the Canadian dollar to the United States dollar commencing on the Effective Date. The change in functional currency was accounted for on a prospective basis, with no impact of this change on prior year comparative information. Determination of functional currency may involve certain judgements to determine the primary economic environment.

Presentation currency

On January 1, 2023, the Company elected to change its presentation currency from the Canadian dollar ("C\$" or "CAD") to the United States dollar ("\$" or "USD"). The change in presentation currency is to better reflect the Company's business activities and to improve investors' ability to

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

compare the Company's financial results with other publicly traded businesses in comparable industries. From January 1, 2023, the United States dollar presentation currency is consistent with the functional currency of the Company. The Company applied the change to the United States dollar presentation currency retrospectively, with prior period comparative information for each comparative period in these financial statements translated from the Canadian dollar presentation currency to the new United States dollar presentation currency at the foreign exchange rate of 1.3544 Canadian dollars per United States dollar, being the rate of exchange prevailing on January 1, 2023.

Transactions and balances

Transactions in currencies other than the functional currency are recorded at exchange rates prevailing on the dates of the transactions. At the end of each reporting period, the monetary assets and liabilities of the Company that are denominated in foreign currencies are translated at the rate of exchange at the reporting date while non-monetary assets and liabilities are translated at historical rates. Revenues and expenses are translated at the exchange rates approximating those in effect on the date of the transactions. Exchange gains and losses arising on translation are included in the consolidated statement of loss and comprehensive loss.

(c) Critical accounting estimates

The preparation of financial statements requires management to make estimates that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period.

Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Significant areas requiring the use of estimates and assumptions relate to the review of asset carrying values and determination of impairment charges relating to non-current assets if an indicator of impairment is identified. Actual results could differ from those estimates. Key estimates made by management with respect to the areas noted previously have been disclosed in the notes to these consolidated financial statements as appropriate.

(d) Use of judgements

Significant areas requiring judgement relate to assessing exploration and evaluation assets for indicators of impairment, determining the appropriate accounting for the Wheaton Precious Metals Purchase Agreement ("Wheaton PMPA") with Wheaton Precious Metals International Ltd. ("Wheaton Metals") as disclosed in note 9, the going concern assessment as discussed in note 2, and the determination of functional currency as disclosed in note 3 (b).

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

4. Material accounting policy information

(a) Basis of consolidation

The subsidiaries of the Company, all of which are wholly owned, at December 31, 2023, are as follows:

	Country of	
Name of subsidiary	Incorporation	Principal activity
Panoro Apurimac S.A.	Perú	Mineral exploration
Panoro Explora, S.A.C.	Perú	Services company
Panoro Holdings Ltd.	Canada	Holding company
Apurimac Copper S.A.	Perú	Mineral exploration
Promesa Copper S.A.	Perú	Mineral exploration
Alto Copper S.A.	Perú	Mineral exploration
Panoro Gold S.A.	Perú	Mineral exploration
Panoro Copper Royalties Ltd.	Canada	Royalty company
Panoro Pacific Minerals Inc.	Philippines	Holding company
Panoro Trading (Caymans) Ltd.	Cayman Islands	Project financing

The consolidated financial statements of the Company comprise the financial statements of the parent and its wholly owned subsidiaries as at December 31, 2023. All intercompany transactions and balances have been eliminated on consolidation.

The Company's interest in Antilla Copper, S.A. following the sale of the project in December 2021 (Note 5), is an equity-accounted investment as the Company has significant influence, but not control or joint control, over the financial, investing and operating policies. The investment is initially recognized at fair value and subsequent to initial recognition, the consolidated financial statements include the Company's share of the profit or loss of the equity-accounted investment until the date on which significant influence ceases.

(b) Foreign currency transactions and operations

Transactions in foreign currencies are translated into the functional currency at the exchange rates at the date of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at a fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are recognized in profit or loss.

(c) Investment in associate

The Company's investment in Antilla Copper S.A. ("Antilla Copper") is accounted for as an investment in associate.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control of those policies. The Company is presumed to have significant influence if it holds, directly or indirectly, 20% or more of the voting power of the investee, unless it can be clearly demonstrated that the Company does not have significant influence. Investments in entities in which the Company owns less than a 20% interest are accounted for as marketable securities or other investments in equity instruments unless it can be clearly demonstrated that significant influence exists based on the Company's contractual rights and other factors.

The Company accounts for an investment in associate using the equity method. Under the equity method, the Company's investment in an associate is initially recognized at cost and subsequently increased or decreased to recognize the Company's share of net income or loss and other comprehensive income or loss of the associate, and for impairment losses after the initial recognition date. The Company's share of income or loss and other comprehensive income or loss of the associate is recognized in net income or loss and other comprehensive income or loss, respectively, during each reporting period.

When an investee ceases to be an associate, the Company discontinues the use of the equity method to account for its investment. When the Company retains an interest in the former associate, the Company accounts for the interest as a marketable security or other investment in equity instrument and a gain or loss is recognized in net income or loss for the difference between: (i) the fair value of any retained interest and any proceeds from disposing of a partial interest in the associate; and (ii) the carrying amount of the investment at the date the use of the equity method was discontinued.

(d) Exploration and evaluation expenditures

Expenditures incurred before legal rights to explore a specific area are obtained are expensed. All acquisition and exploration and evaluation costs are capitalized until such time as the project to which they relate is put into commercial production, sold, abandoned or the recovery of costs is determined to be unlikely. The costs include costs to establish an initial mineral resource and determine whether inferred mineral resources can be upgraded to measured and indicated mineral resources and whether measured and indicated mineral resources can be converted to proven and probable reserves.

Upon reaching commercial production, these capitalized costs will be amortized over the estimated reserves on a unit-of-production basis. For properties which do not yet have proven reserves, the amounts shown represent costs to date and are not intended to represent present or future values. The recovery of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable resources, the ability of the Company to obtain financing to complete exploration and development of the properties, and on future profitable production or proceeds on disposition of the properties. The underlying value of all properties is dependent on the existence and economic recovery of mineral resources in the future which includes acquiring the necessary permits and approvals.

From time to time, the Company may acquire or dispose of a mineral property interest pursuant to the terms of an option agreement. As the options are exercisable entirely at the discretion of

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

the optionee, the amounts payable or receivable are not recorded. Option payments are recorded as property costs or recoveries when the payments are made or received.

(e) Impairment of long-lived assets

Management periodically reviews the carrying value of its long-lived assets, including its exploration and evaluation assets and its investment in Antilla Copper. Exploration and evaluation assets are reviewed with internal mining related professionals. If impairment indicators are identified, impairment is determined for such assets by assessing the recoverable amount of each cash generating unit ("CGU"). The Company defines a CGU as each separate property which is the smallest identifiable group of assets that generates cash inflows that are independent of other assets or group of assets. A decision to abandon, reduce or expand a mineral property interest is based upon many factors including the future costs of exploring and developing a specific exploration asset, the expiration term and ongoing expense of maintaining leased mineral properties and the general likelihood that the Company will continue exploration.

The Company does not set a pre-determined holding period for properties with unproven reserves. However, properties which have not demonstrated suitable mineral concentrations at the conclusion of each phase of an exploration program are re-evaluated to determine if future exploration is warranted and their carrying values are recoverable.

For exploration and evaluation assets, the Company follows the guidance in IFRS 6 – Exploration for and Evaluation of Mineral Resources to determine whether exploration and evaluation assets are impaired. Impairment indicators relevant for exploration and evaluation properties include:

- whether the rights to explore the area of interest have expired during the period or will expire in the near future, and the rights are not expected to be renewed;
- substantive expenditure on further exploration and evaluation is not planned or budgeted;
- the exploration activities have not led to a discovery of commercial reserves and the Company has decided not to continue such activities in the area of interest being explored; or
- sufficient data exists to indicate that, although exploration in the area is likely to continue, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

Where a potential impairment is indicated, assessments are performed for each CGU. To the extent that the capitalized exploration and evaluation expenditures are not expected to be recovered, the excess of the carrying value over the recoverable amount is recorded as a write-down in the consolidated statement of loss and comprehensive loss in the period impairment indicators are identified. When a concession is returned to the government, costs directly attributable to the concession are written off. Certain concessions within a CGU may be contiguous to other claims and therefore remain in exploration expenditures.

When the recoverable amount of a mineral property interest is less than the carrying amount an impairment loss is recognized. Impairment losses relating to the CGUs can be reversed in future

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

periods if circumstances change. The recoverable amount of a mineral property interest is determined based on the fair value less costs to sell or value-in-use and based on plans to advance the property.

(f) Income taxes

The Company follows the asset and liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and losses carried forward. Deferred tax assets and liabilities are measured using substantively enacted or enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the substantive enactment date. Deferred tax is not recognized for the temporary differences arising from the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets that are recognized are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(g) Value added taxes recoverable

The Company incurs Impuesto General a las Ventas ("IGV") in Perú (which is a Peruvian value-added tax). The Company has entered into an agreement with the Ministry of Energy and Mines to recover such amounts which relate to approved properties. IGV paid related to non-approved mineral property expenditures is only recoverable when future sales revenues are earned from the related mineral properties by offsetting the IGV otherwise payable at that time. As the IGV payments incurred on both approved and non-approved mineral property expenditures are uncertain of recovery, they have been included in mineral property exploration expenditures. Any future recoveries of these amounts are offset against the mineral property exploration expenditures.

(h) Accounting for Early Deposit on Precious Metals Purchase Agreement (See Note 9)

Significant judgment was required in determining the appropriate accounting for the Wheaton PMPA with Wheaton Metals. The upfront cash deposits received from future stream transactions have been accounted for as financial liabilities measured at FVTPL, with the resulting foreign exchange gains and losses recorded through the statements of loss and comprehensive loss as "change in fair value of Early Deposit Precious Metals Agreement financial liability", on the basis that the deposit amounts received could become repayable under certain circumstances. Amounts that could become immediately repayable in the event the Wheaton PMPA is terminated are reflected within current liabilities.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

(i) Share-based expense

The Company has a stock option plan that is described in Note 10(b). Share-based expenses are measured at the fair value of the goods or services received or the fair value of the equity instruments issued if it is determined the fair value of the goods or services cannot be reliably measured and are recorded at the date the goods or services are received. The amount recognized as an expense is adjusted to reflect the number of awards expected to vest. The offset to the recorded cost is to share-based expense reserve. Consideration received on the exercise of stock options is recorded as share capital and the related share-based expense reserve is transferred to share capital.

The Company uses the Black-Scholes Option Pricing Model to estimate the fair value of share-based awards granted. Option pricing models require the input of highly subjective assumptions. The expected life of options considers such factors as the average length of time similar option grants in the past have remained outstanding prior to exercise, expiry or cancellation and the vesting period of options granted. Volatility is estimated based on average daily volatility based on historical share price observations over the expected term of the option grant. Changes in the subjective input assumptions can materially affect the estimated fair value of options.

(i) Financial instruments

Financial assets

The Company classifies its financial assets in the following categories: at fair value through profit and loss ("FVTPL"), at fair value through other comprehensive income (loss) ("FVTOCI") or at amortized cost. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition. Measurement and classification of financial assets is dependent on the entity's business model for managing the financial assets and their contractual cash flow characteristics.

Financial assets at FVTPL – Financial assets carried at FVTPL are initially recorded at fair value and transaction costs are expensed in profit or loss. Realized and unrealized gains and losses from changes in the fair value of the asset held at FVTPL are included in profit or loss in the period in which they arise. Derivatives are also categorized as FVTPL unless they are designated as hedges.

Financial assets at FVTOCI – Investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently, they are measured at fair value, with gains and losses arising from changes in fair value recognized in other comprehensive income or loss. There is no subsequent reclassification of fair value gains and losses to profit or loss following de-recognition of the investment.

Financial assets at amortized cost – Financial assets at amortized cost are initially recognized at fair value and subsequently carried at amortized cost less any impairment. They are classified as current assets or non-current assets based on their maturity date.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

Financial assets are derecognized when they mature or are sold, and substantially all the risks and rewards of ownership have been transferred. Gains and losses on de-recognition of financial assets classified as FVTPL or amortized cost are recognized in profit or loss.

Gains or losses on financial assets classified as FVTOCI remain within accumulated other comprehensive income.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. If at the reporting date, the credit risk has not increased significantly since initial recognition, the Company measures loss allowances on amounts receivable at an amount equal to the twelve months' expected credit loss ("ECL"). When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort.

Financial liabilities

The Company measures all its financial liabilities (other than liabilities under the Early Deposit Precious Metals Agreement, which is measured at fair value through profit or loss), as subsequently measured at amortized cost. Financial liabilities are recognized initially at fair value, net of transaction costs incurred and are subsequently measured at amortized cost. Any difference between the amounts originally received, net of transaction costs, and the redemption value is recognized in profit and loss over the period to maturity using the effective interest method. The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

The following table shows the classification of liabilities under IFRS 9:

	Classification under IFRS 9
Cash and cash equivalents	Amortized cost
Marketable securities	FVTOCI
Accounts and advances receivable	Amortized cost
Accounts payable and accrued liabilities	Amortized cost
Liabilities under Early Deposit Precious Metals Agreement	FVTPL

(k) IFRS standards adopted

On February 12, 2021, the IASB issued Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2). The amendments require the disclosure of material accounting policies rather than significant accounting policies. The amendments are effective for annual periods beginning on or after January 1, 2023. The Company has done an assessment of these amendments and there is no material impact to the Company's financial statements or disclosure. The Company adopted these amendments in its consolidated financial statements for the annual period beginning on January 1, 2023.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

The Company has not early adopted any amendment, standard or interpretation that has been issued by the IASB but that is not yet effective, nor has it identified any such standard or interpretation that is expected to have a material impact on the Company's consolidated financial statements.

5. Investment in associate

On December 3, 2021, the Company completed a sale of 75% of its interest in the Company's subsidiary, Antilla Copper which holds the Antilla project, an advanced stage mineral exploration project (the "Antilla Project"). The acquisition payments are staged and the acquiror, Heeney Capital Acquisition Company ("HCAC") initially acquired 75% of the shares of Antilla Copper for \$7,383,000 (C\$10,000,000) in cash, and \$2,032,540 (C\$2,753,000) (the "Second Payment"), receivable at the earlier of HCAC going public on an internationally recognized stock exchange or ten months from the closing of the transaction, being October 3, 2022. An additional 15% of the Company's shares in Antilla Copper is to be sold for a contingent \$5,293,000 (C\$7,000,000) twelve months after the earlier of drilling permits and community land use agreements being obtained or a pre-feasibility or feasibility study is completed on the Antilla Project which will result in HCAC having a 90% interest in Antilla Copper. The Company and HCAC are to contribute their pro-rata portion of all exploration and development expenditures.

The agreement also includes a further contingent payment of \$7.6 million (C\$10.0 million) if a feasibility study estimates the net present value at an 8% discount rate ("Antilla NPV8") of the Antilla Project to be above \$310 million; or up to \$37.8 million (C\$50.0 million) if the Study estimates the Antilla NPV8 to be above \$360 million.

The net smelter returns royalty ("NSR") to Panoro over the life of the Antilla Project will include an existing 2.0% NSR; and an additional 1.0% NSR if the Company's ownership in Antilla Copper is diluted to below 5%. If this occurs, the Company will have a total 3.0% NSR on the Antilla Project, subject to a buyback right for the 1.0% NSR for \$3.0 million (C\$4.0 million).

At the time of the sale, the Company deconsolidated the net assets of Antilla Copper and recorded the retained interest as an equity investment, initially recorded at its fair value of \$3,199,054 (C\$4,333,000), determined based on the transaction value.

During the year ended December 31, 2023, the Company amended the Antilla Copper sale agreement with Calisto Cobre Resources Corp. (formerly HCAC) ("Calisto") in which both parties agreed to the following amended terms:

- defer the Second Payment balance to the earlier of (i) a date within 30 days of an Initial Public Offering ("IPO") of Calisto on an internationally recognized stock exchange and (ii) March 31, 2024;
- Calisto agreed pay interest on any Second Payment outstanding amounts at a rate of 6.7% to be accrued and payable at the earlier of the date of the full payment of the Second Payment outstanding balance or March 31, 2024;
- Calisto has the right to prepay the Second Payment outstanding balance at any time prior to an IPO, without penalty, together with any accrued and unpaid interest up to the prepayment date; and

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

 In the event of failure by Calisto pay the Second Payment outstanding balance by March 31, 2024, Calisto shall immediately transfer to Panoro such number of shares of Antilla Copper comprising 17.3% of the issued and outstanding shares of Antilla Copper to be adjusted as necessary to result in Panoro's post-transfer interest in Antilla Copper to be its interest in Antilla Copper less any dilution as at October 6, 2022, the original due date of the Second Payment.

Upon signing the amended sale agreement, Calisto made a payment of \$222,630 (C\$300,000) towards the Second Payment.

As at December 31, 2023, included in accounts and advances receivable is \$1,854,713 (December 31, 2022 – \$2,032,540), the outstanding balance of the Second Payment and \$150,474 (December 31, 2022 – \$nil), the outstanding balance of accrued interest receivable both of which were paid subsequent to December 31, 2023 (see note 18).

At December 31, 2023, the Company retains an interest of approximately 21% (December 31, 2022 – 23%) in Antilla Copper. During the year ended December 31, 2023 the Company has recorded its share of equity loss and a dilution gain with respect to its investment in Antilla Copper. The share of equity loss and dilution gain for the year ended December 31, 2022 was not significant.

	Antilla Copper
Balance as at December 31, 2022 and 2021	\$ 3,199,054
Dilution gain	206 245
Dilution gain	206,245
Share of net loss	(42,757)
Balance as at December 31, 2023	\$ 3,362,542

6. Exploration and evaluation assets

The investment in, and expenditures on, mineral interests comprise a significant portion of the Company's assets. The realization of the Company's investment in these assets is dependent upon the confirmation of legal ownership of the properties and the attainment of successful production from the properties or from the proceeds of their disposal. Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

The Company's main mineral property interest is Cotabambas, an advanced stage exploration property. As at December 31, 2023, the Company's other fully held mineral property interests are all in various stages of exploration. All exploration and evaluation asset interests are 100% held by the Company through wholly owned direct and indirect subsidiaries of the Company that were created to hold the various mineral property interests.

The Company performs an ongoing review of its properties, and based on the analysis of the properties, there were no indicators of impairment with respect to the mineral property interests with capitalized exploration and evaluation costs at December 31, 2023.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

Humamantata

At December 31, 2023, the Company has \$0.6 million (2022 – \$0.5 million) in capitalized exploration and evaluation costs with respect to the Humamantata Project.

Cochasayhuas

In August 2023, the Company completed the sale of its Cochasayhuas project for \$460,000 to a private Peruvian mining company and recorded a gain of \$384,874 on the sale. The transaction, transfer and registration of mineral concession ownership has been completed.

Kusiorcco

On December 28, 2017, the Company entered into an agreement with a subsidiary of Hudbay Minerals Inc. ("Hudbay"), whereby Hudbay acquired the Company's concessions comprising the Kusiorcco Property. Pursuant to the terms of the agreement with Hudbay, the Company initially received \$3.0 million which was recorded as proceeds and the Company was scheduled to receive four milestone payments from Hudbay as follows: \$500,000 on the execution of agreements with local communities and surface titleholders necessary for Hudbay to access and carry out a drill program on the project (payment received in fiscal 2019); and three additional payments to be received as follows: \$500,000 upon completion of Hudbay's first drill hole; \$500,000 upon completion of Hudbay's tenth drill hole on the project. The Company also retains a 2.0% NSR from mineral production on the project. Hudbay has the option to buy back one-half of the 2.0% NSR (reducing the NSR to 1.0%) for \$2.0 million within five years of the acquisition, and for \$5.0 million thereafter.

During the year ended December 31, 2022, Hudbay made a payment of C\$1.9 million for the remaining three milestone payments as described above, one year in advance of the original payment date of January 2023. This amount has been recorded in the consolidated statement of loss and comprehensive loss as gain on Kusiorcco agreement. Hudbay now holds the property subject only to the NSR described above.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

Exploration and evaluation assets at December 31, 2023 and expenditures for the year then ended are as follows:

Capital commitments pertaining to the Company's mineral properties are disclosed in Note 13.

<u>Other</u>

The Company received an airborne survey database at the time it acquired a former subsidiary of the company, Cordillera Copper Ltd. The Company has licensed this database to mining companies on a non-exclusive perpetual basis from time to time. For the year ended December 31, 2022, the Company earned income of \$350,340.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

8. Right-of-use assets and lease liabilities

The Company signed an office lease agreement commencing August 1, 2021, for a period of 6 years.

The lease liabilities can be reconciled to the obligations as of December 31, 2023 and December 31, 2022, as follows:

Lease liability recognized as of December 31, 2021 (1)	\$ 205,758
Addition to lease liability at March 1, 2022 ⁽¹⁾	44,535
Repayment of lease liability	(43,803)
Interest accrued on lease liabilities	(21,500)
Interest payment on lease liabilities	21,500
Lease liability recognized as of December 31, 2022	\$ 206,490
Repayment of lease liability	(53,490)
Interest accrued on lease liabilities	(17,568)
Interest payment on lease liabilities	17,568
Lease liability recognized as of December 31, 2023	\$ 153,000
Current portion of lease liability	\$ 52,058
Long-term portion of lease liability	\$ 100,942

⁽¹⁾ The lease liabilities were discounted using an incremental rate of 9.57% per annum on entering into such lease.

As of December 31, 2023, the remaining undiscounted lease payments, including non-lease components, are disclosed in Note 13 – Commitments.

9. Early Deposit Precious Metals Agreement

On March 21, 2016, the Company entered into the Wheaton PMPA in respect of the Cotabambas project located in Perú. The term of the Wheaton PMPA continues in effect for 20 years and automatically renews for successive ten-year periods until Wheaton Metals terminates the Wheaton PMPA. The principal terms of the Wheaton PMPA are such that Wheaton Metals will pay the Company upfront cash payments totaling \$140.0 million (the "Deposit") for 25% of the payable gold production and 100% of the payable silver production (decreasing to 16.67% of the payable gold production and 66.67% of the payable silver production), after a certain production volume has been delivered to Wheaton Metals from the Company's Cotabambas Project in Perú.

In addition, Wheaton Metals will make production payments to the Company of the lesser of the market price and \$450 per payable ounce of gold and \$5.90 per payable ounce of silver delivered to Wheaton Metals, increasing annually by 1%, four years after commencement of commercial production, over the life of the Company's Cotabambas Project. Any excess of the market price and the fixed payments will be credited against the Deposit ("Early Deposit") until the Early Deposit is nil. If, by the expiry of the term of the Wheaton PMPA, the Company has not delivered enough production to reduce the Early Deposit to nil, the uncredited balance will be repaid to Wheaton Metals. The Wheaton PMPA provides for the Company to receive \$14.0 million of the Early Deposit prior to the Company completing a feasibility study on the Cotabambas project.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

Payments under the Early Deposit total \$2.0 million in the first year and instalments of \$750,000 semi-annually thereafter until the full \$14.0 million has been advanced. The Early Deposit also included a provision to accelerate payment of an amount equal to the amount of funds raised in any offering of equity securities for the purpose of exploration of the Cotabambas project during the period January 27, 2016, to March 21, 2018, up to a maximum of \$3.5 million for all such offerings. The Company received \$2.0 million from Wheaton Metals pursuant to offerings.

Under the Early Deposit provisions the Company must meet certain minimum working capital requirements. The balance of \$126.0 million is payable in instalments during construction of the Cotabambas Project, should Wheaton Metals elect to proceed with the Agreement. Wheaton Metals may terminate the Wheaton PMPA at any point up to 90 days following delivery of a feasibility study on the Cotabambas project upon giving the Company three months' notice, in which case all Early Deposit amounts advanced less \$2.0 million will become repayable. Wheaton Metals can elect to be repaid in cash or shares, with the deferral of cash payments under certain conditions for up to two years. If Wheaton Metals elects to terminate the Wheaton PMPA and be repaid with cash, interest will accrue at prime plus 8% per annum if repayment has not been made within two years of notice of termination. Wheaton Metals may also terminate the Wheaton PMPA at different points during the term of the Wheaton PMPA if certain production delays occur, in which case the uncredited deposit will be repayable to Wheaton Metals.

Following a change of control, subject to certain conditions, the Company has a one-time option to repurchase 50% of the precious metals stream with a payout based on the greater of: (i) a minimum fixed return (ii) a return based on appreciation of precious metals prices over the term of the Wheaton PMPA and (iii) a return based on appreciation of the share price of the Company over the term of the Wheaton PMPA.

At December 31, 2023, the Company has received a total of \$14.0 million under the Early Deposit, including an accelerated payment of \$2.0 million after the successful completion of a private placement in August 2016.

Liabilities under the Wheaton WPMA at December 31, 2023 and December 31, 2022 and cash flow for the year then ended are as follows:

Liabilities under Precious Metals Purchase Agreement	Balance, December 31, 2022	2023 Additions	Balance, December 31, 2023
Current liabilities	\$11,000,000	\$1,000,000	\$12,000,000
Long-term liabilities	2,000,000	-	2,000,000
	\$13,000,000	\$1,000,000	\$14,000,000

Liabilities under Precious Metals Purchase Agreement	Balance, December 31, 2021	Foreign exchange	2022 Additions	Balance, December 31, 2022
Current liabilities	\$8,892,159	\$656,915	\$1,450,926	\$11,000,000
Long-term liabilities	1,872,033	127,967	-	2,000,000
	\$10,764,192	\$784,882	\$1,450,926	\$13,000,000

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

10. Share capital

(a) Authorized

Unlimited common shares without par value.

Issued and outstanding: 264,375,058 common shares as at December 31, 2023 and 2022.

(b) Stock options

Stock options to purchase common shares have been granted to directors, employees, contractors, and consultants at exercise prices determined by reference to the market value on the date of the grant.

The number of shares available for options to be granted under the Company's rolling stock option plan is 10% of the number of shares outstanding (the "Plan"), as amended at the Annual General Meeting held on June 22, 2022 and re-approved at the Annual General Meeting held on June 21, 2023. Options granted under the Plan vest immediately or over a period of time at the discretion of the Board of Directors.

During the year ended December 31, 2023, the Company granted 9,700,000 stock options with an exercise price of C\$0.15 exercisable up to five years from the date of grant to directors, officers and employees of the Company. The fair value of the share-based compensation recognized was \$581,012 as determined using the Black-Scholes Option Pricing Model with weighted average assumptions of a risk-free rate of return of 3.13%, expected life of 5 years, expected volatility of 73.7% and expected dividend yield of 0%.

During the year ended December 31, 2022, the Company granted 500,000 stock options exercisable up to five years from the date of grant to an employee of the Company. The fair value of the share-based compensation recognized was \$26,324 as determined using the Black-Scholes Option Pricing Model with weighted average assumptions of a risk-free rate of return of 3.31%, expected life of 5 years, expected volatility 74.6% and expected dividend yield of 0%.

The following were changes to the stock options of the Company:

	Number of Options	Weighted average exercise price
Balance, December 31, 2021	11,250,000	\$0.19
Stock options granted during the year	500,000	\$0.09
Stock options expired during the year	(600,000)	\$0.15
Balance, December 31, 2022	11,150,000	\$0.19
Stock options granted during the year	9,700,000	\$0.11
Stock options expired during the year	(6,650,000)	\$0.25
Balance, December 31, 2023	14,200,000	\$0.11

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

The weighted average life of exercisable options outstanding as of December 31, 2023 is 3.06 years (December 31, 2022 - 0.91 years).

The following stock options were outstanding and exercisable at December 31, 2023:

		Weighted
	Number	average
Expiry date	of options	exercise price
August 16, 2024	4,000,000	\$0.11 (C\$0.15)
August 26, 2027	500,000	\$0.09 (C\$0.12)
January 11, 2028	9,700,000	\$0.11 (C\$0.15)
	14,200,000	\$0.11 (C\$0.15)

11. Income taxes

At December 31, 2023, no deferred tax assets are recognized on the following deductible temporary differences as it is not probable that sufficient future taxable profit will be available to realize such assets:

	2023	2022
Exploration and evaluation assets	\$ 8,253,586	\$ 1,775,600
Property and equipment	128,071	273,346
Tax losses carried forward and other	24,082,238	21,661,381
Other	369,105	285,148
Unrecognized deductible temporary differences	\$ 32,833,000	\$ 23,995,475

The Company has non-capital losses of approximately \$20.0 million (2022 – \$17.8 million) and \$4.1 million (2022 – \$4.2 million) to reduce future income tax in Canada and Perú, respectively. The losses in Canada expire between 2026 and 2043 and the losses in Perú expire between 2024 and 2026.

The provision for income taxes differs from the amount calculated using the Canadian federal and provincial statutory income tax rates of 27% (2022 - 27%) as follows:

	2023	2022
Income tax benefit computed at Canadian statutory rates (27%)		
multiplied by loss before tax	\$ (565,389)	\$ (103,818)
Permanent and other differences	10,525	260,511
Foreign exchange	(460,992)	(1,608,593)
Expired losses	2,897	-
Difference in foreign tax rates	60,358	(15,383)
Deferred income tax assets not recognized	1,342,959	1,533,135
Other	(390,358)	-
Income tax expense (recovery)	\$ -	\$ 65,852
Income tax expense (recovery) is comprised of:		
Current income tax expense	\$ -	\$ 376,746
Deferred income tax recovery	-	(310,894)
	\$ -	\$ 65,852

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

12. Related party transactions

Key management personnel are those persons that have the authority and responsibility for planning, directing, and controlling the activities of the Company, directly or indirectly. Key management includes the Company's directors and members of the senior management group and consisted of eleven individuals as at and for the year ended December 31, 2023 and as at and for the year ended December 31, 2022.

For the year ended December 31, 2023, key management personnel compensation included salaries, fees and benefits recorded in the statement of loss and comprehensive loss and as part of additions to exploration and evaluation assets of \$1,120,926 (2022 – \$1,042,494).

During the year ended December 31, 2023 the Company received other income of \$77,295 (2022 – \$246,261) from Calisto with respect to support services provided in relation to the Antilla project.

As at December 31, 2023, included in accounts payable and accrued liabilities was \$54,188 (December 31, 2022 – \$1,846) in directors' fees payable.

13. Commitments

The Company has the following commitments and payments due at December 31, 2023:

	2024	2025	2026	Total
Office lease (Vancouver)	\$ 81,179	\$ 82,615	\$ 84,050	\$ 247,844
Office lease (Perú)	5,226	-	-	5,226
Accrued vigencias	490,078	-	-	490,078
Accounts payable and accrued liabilities	568,221	-	-	568,221
Current tax liability	103,046	-	-	103,046
	\$ 1,247,750	\$ 82,615	\$ 84,050	\$ 1,414,415

Vigencias (or recording fees) of \$3 per hectare are not commitments, but rather the annual payments required to maintain mineral concessions in good standing with the Peruvian government. The ultimate amount to be paid is based on a formula relating to exploration costs incurred, offset against the basic fee and penalty. After the 6th year, an annual penalty must be paid per hectare, starting at \$6 per hectare, until after 12 years, the additional fee increases to \$20 per hectare. The penalties are reduced, based on exploration activity on the concessions, and the reduction is determined each year by the Peruvian government.

The Company entered into an office lease in Lima effective April 1, 2022. The Company entered into an office lease in Vancouver effective August 1, 2021 for a period of six years. The Company leases warehouses in Cusco which are renewed annually. The Company is in the process of finalizing its commitments under community agreements with respect to ongoing operations at the Cotabambas project.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

14. Financial instruments and capital management

(a) Fair value of financial instruments

The fair values of the Company's cash and cash equivalents, accounts and advances receivable and accounts payable and other liabilities, including liabilities under the Early Precious Metals Agreement, approximate their carrying values because of the actual or potential short-term nature of these instruments.

At December 31, 2023 and December 31, 2022, the Company held 6,667 common shares in Fidelity Minerals Corp. ("Fidelity"), at a book value of \$10,000 and a fair value of \$111 (December 31, 2022 – \$118). These shares have been recognized at fair value in the consolidated statement of financial position with gains or losses on revaluation recognized in other comprehensive income (loss).

IFRS 13 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value.

The three levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Marketable securities are determined based on a market approach reflecting the closing price of each particular security at the reporting date. The closing price is a quoted market price obtained from the exchange that is the principal active market for the particular security. As a result, these financial assets have been included in Level 1 of the fair value hierarchy.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly, for substantially the full contract term.

Level 3: Inputs for the financial asset or liability are not based on observable market data. The Company has no financial assets or liabilities recorded in the statements of financial position included in Level 3 of the fair value hierarchy.

(b) Financial risks

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, and certain market risks including foreign currency and interest rate risk.

Credit risk

The Company manages its credit risk through its counterparty ratings and credit limits. The Company is mainly exposed to credit risk on its bank accounts and accounts and advances receivable. Bank accounts and short-term investments are primarily with Canadian Schedule 1 banks and Banco de Credito in Peru. The Company has accounts and advances receivable primarily related to IGV receivable from the Peruvian government. The Company's receivable related to its sale of its Antilla project (note 5) is secured by the return of equity in the event of default. At December 31, 2023, the total of cash and cash equivalents, and accounts and

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

advances receivable of \$2,551,453 (December 31, 2022 – \$7,998,562) represents the maximum credit exposure. The Company has not identified any significant increase in credit risk with respect to its financial assets at December 31, 2023. The Company has not identified any allowances for credit losses at December 31, 2023 or December 31, 2022.

Liquidity risk

The Company manages its liquidity risk by ensuring, as far as possible, that there is sufficient liquidity to meet short-term business requirements, after taking into account the Company's holdings of cash. The Company's cash and cash equivalents are primarily invested in bank accounts, bankers' acceptances, and US government treasury bills, which are available on demand.

Contractual commitments that the Company is obligated to pay in future years are disclosed in note 13. Accounts payable and accrued liabilities require payment within one year. See also note 2, Going Concern.

Market risk

The significant market risks to which the Company is exposed are foreign currency risk and interest rate risk.

Foreign currency risk

The Company maintains its financial statements in United States dollars. The Company is exposed to foreign currency fluctuations to the extent mineral interests, exploration expenditures and operating expenses incurred by the Company are not denominated in United States dollars.

The Company does not use derivatives or other instruments to manage foreign currency risk. The Company's operations in Perú make it subject to foreign currency fluctuations and such fluctuations may materially affect the Company's financial position and results. The Company's operating results, and cash flows are affected to varying degrees by changes in the United States dollar exchange rate vis-a-vis the Peruvian Nuevo Sol and the Canadian Dollar.

The Company purchases foreign currencies as the need arises to fund its exploration activities. Corporate expenditures are primarily incurred in Canadian and US dollars.

As at December 31, 2023, a 10% change in applicable foreign exchange rates would not have a significant impact on the Company's financial results other than the effect from its receivable from Calisto (see note 5) where a 10% strengthening or weakening of the Canadian dollar compared to the US dollar would result in a foreign exchange loss or gain respectively of approximately \$0.2 million on the Company's financial results. Subsequent to December 31, 2023, the Company received the Second Payment from Calisto (see note 18).

Interest rate risk

The Company's cash and cash equivalents earn interest income at variable rates. The fair value of its portfolio is relatively unaffected by changes in short-term interest rates. The Company's future interest income is exposed to changes in short-term rates; however, based on the cash and cash equivalent balance at December 31, 2023, a 1% change in interest rates would not have a significant impact on the Company's financial results.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

(c) Capital management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern such that it can continue to pursue the exploration and development of its mineral property interests, while maintaining a flexible capital structure. The Company considers the items included in shareholders' equity as capital. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, sell assets to settle liabilities or return capital to its shareholders. The Company is not subject to any externally imposed capital requirements. There were no changes to the Company's approach to capital management during the year ended December 31, 2023.

15. Segmented disclosures

The Company has one operating segment, mineral exploration. All the Company's exploration and evaluation assets and investments are located in Peru and are disclosed in Notes 5 and 6. Property and equipment are distributed geographically as follows.

	2023	2022	2
Peru	\$ 41,558	\$ 46	5,938
Canada	177,707	245	5,907
	\$ 219,265	\$ 292	2,845

16. Basic and diluted loss per share

The calculation of basic and diluted income and loss per share for the year ended December 31, 2023, was based on the loss attributable to common shareholders of \$2,094,033 (2022 – \$450,365) and the weighted average number of common shares outstanding of 264,375,058 (2022 – 264,375,058) respectively.

For the years ended December 31, 2023 and 2022, diluted loss per share is the same as basic loss per share, as the effect of outstanding share options (see note 10 (b)) on loss per share would be anti-dilutive. Anti-dilutive instruments have not been included in the determination of fully diluted loss per share.

Notes to the Consolidated Financial Statements (Expressed in **United States dollars**, unless otherwise stated) For the years ended December 31, 2023 and 2022

17. Supplementary cash flow information

Non-cash activities:	2023	2022
Decrease (increase) in accounts payable and accrued liabilities associated with exploration and evaluation expenditures	\$ 108,702	\$ (534,936)
Lease liability and right-of-use asset addition	-	44,453
Advances receivable applied against current tax liability	(132,891)	-

18. Subsequent events

On March 4, 2024, Calisto paid a total of \$1,978,259 (C\$2,684,893) to Panoro in relation to the Antilla receivable, consisting of \$1,807,398 (C\$2,453,000), the balance of the Second Payment and accrued interest of \$170,861 (C\$231,893) (see note 5).
